

Our Mission, Belief & Vision Statements

Mission Statement: Our mission is to enable persons of all ages with disabilities to live as contributing, valued members of the community by promoting: Inclusion, Independence, Individualization, Productivity and Self-Determination. Amongst the education department we strive to establish a strong foundation that promotes learning through our effective teaching methods, while providing a positive support system for students, staff and families.

Belief Statement: We believe that all students can excel behaviorally, academically and emotionally when provided with structure, consistency, high expectations and a caring, supportive environment that promotes community partnerships.

Vision Statement: At the Educational Learning Experience, every student is empowered for success in a safe, loving environment fostered by compassionate and empathic staff members who value positive relationships and see unlimited potential.

GROW WITH US!

The program provides positive behavioral supports and interventions across the entire department.

Educational Learning

Experience

Establishing a strong foundation that promotes learning through effective teaching methods, while providing a positive support system for students, staff and families.

Instruction is individualized and differentiated to meet our individual students' needs.

As The Arc Sullivan-Orange Counties NY Educational Learning Experience family, we are "Changing Lives: One Heart, One Mind, One Community" at a time by focusing on our shared vision of excellence in education and creating a culture of kindness and teamwork.

We have been serving children with disabilities since 1954 and as one of the largest private education providers in Orange County, we support up to 45 school age children a year that reside in Orange, Sullivan and other surrounding counties. The continued positive impact our programs have made over the last 40 years is represented in the adults who have successfully left our schools and led independent lives. Our program has allowed our students to lead productive lives and be active members of their communities.

We serve children ages 3-21 in our school programs.

10 Things You Should Know about Being an ELE Family Member

- ◆ We are kind to students. We treat students with respect. We build relationships with students. We discuss behavior with students privately and in a respectful manner.
- ◆ We are kind to parents and value their partnership. We provide proactive, not reactive, parent communication with the expectation of building positive relationships with all parents.
- ◆ We are kind to each other. We are more than a team, we are a family. We collaborate and support one another because we believe they are ALL "OUR" kids.
- ◆ We maintain high expectations for our students and for ourselves. We give 100% every day and expect the same from our students. We support them, encourage them, and are purposeful in our instructional decisions.
- ◆ We are open to change, growth, and strive for continual improvement.
- ◆ We plan collaboratively and seek the BEST ideas.
- ◆ We use flexible grouping in our teachings.
- ◆ Lessons, assignments and learning environments are individualized, relevant and engaging without exception.
- ◆ Lesson plans should be a tool for guiding instruction; thorough, well planned, and connected to the students IEP's and standards at all times.
- ◆ Our schoolwide expectations, developed through PBIS, should be taught, modeled and followed by all. The use of common language helps our students experience success behaviorally AND academically. We are overwhelmingly positive and work to catch our students being good.

Educational Learning Experience

The Administrative Team

Beth Laub - Assistant Executive Director

Denise Blair - Assistant Program Director

Cheryl Lachant - Curriculum Coordinator

Deborah Bolzan - Senior Speech Supervisor

Lauren Telesmanic - Senior Occupational Therapist Supervisor

Theresa Gurrieri - Senior Physical Therapist

Assistant Executive Director of Education

Beth has been working in the field of special education for 20 years. She began her teaching career at SAIL at Ferncliff Manor Residential School located in Yonkers NY. She worked with children with multiple disabilities. After many years of working directly with the children developing their individualized programs, she decided she wanted to begin to support the staff so they could support the students and help them all grow to be the best they could be. In 2010 Beth became the Director of United Preschool in White Plains NY where she learned how to become a team's Director, not the Director of the team. Her philosophy is build your team up so they can leave better than when they started, but support them so they do not want to! Her guiding mantra is "listen to listen, not respond", it is the only way to understand and meet the needs of our students.

Denise Blair

Assistant Program Director

Denise joined The Arc of Sullivan Orange Counties in 2014, following fifteen years of working with children with disabilities of all ages and in many different capacities. Her career began at Hawthorne Country Day School in Hawthorne, NY teaching Early Intervention, Preschool and K through 2nd grade children with disabilities. She holds a Masters Degrees in Childhood Education and School Building Leadership from Mercy College. Denise views a collaborative school environment as the key to creating successful teachers and students. She believes partnerships with parents and community members are essential to enriching the school experience for each student.
